Macau, a colony of Portugal for over 400 years, has been developing at an amazing pace since the opening up of the gaming industry in 2001. This economic growth resulted in a long period of booming in the local construction industry. Though the ISO 14001 environmental management system standard has been adopted in many parts of the world since early 2000s, its adoption ...

Solar Market Outlook in Macao The energy consumption of Macao is tremendously high and this is expected to continue its upward trend given the increasing number of large buildings. The lack of proper policies in building energy efficiency is contributing to the ineffective implementation of measures to improve building energy efficiency. While Macao is not among the leaders in Asia ...

In Macao, a company known as Melco, has collaborated with local SMEs in the development of the largest solar power plant in Macao. The project installed more than 18,000 solar PV panels spanning a total of nearly 30,000 square meters of rooftop space. This project is capable of producing up to 7.7 million kWh of energy on an annual basis (or ...
