Is infinity power partnering with conjuncta to produce green hydrogen in Mauritania?

The energy company Infinity Power is joining forces with the German company Conjuncta to produce green hydrogen in Mauritania. The two companies have just signed an agreement with the Mauritanian Ministry of Petroleum, Mines and Energy. OK francais Afrik 21News on the green economy, the environment and sustainable development in Africa francais OK

What is the deal between Mauritania and Infinity Power?

Mauritania has signed a memorandum of understanding (MoU) with Infinity Power. The plan covers the development of a green hydrogen facility, producing up to 8 million tonnes per year. Infinity is a joint venture of Egypt's Infinity and Abu Dhabi's Masdar, plus Germany's Conjuncta.

Is green hydrogen coming to Mauritania?

The energy company Infinity Power is joining forces with the German company Conjuncta to produce green hydrogen in Mauritania. The two companies have just signed an agreement with the Mauritanian Ministry of Petroleum, Mines and Energy. Two new investors are interested in the green hydrogen market in Mauritania.

How is Mauritania affecting the energy supply?

Currently, the population growth is around 2.6% per year. All these transformations in Mauritania are affecting the energy consumption necessitating an evolution in the energy supply. Mauritania is mostly dependent on non-renewable resources (fossil fuels) and the access rate to the grid is pretty low.

What's happening in Mauritania?

Conjuncta and Infinity Power will set up a green hydrogen production plant in the north-east of Nouakchott, the capital of Mauritania, in several phases. The first phase will have an electrolysis capacity of 400 MW and is expected to be operational in 2028.

DUBAI, UAE -- Today at COP28, the U.S. Department of Energy (DOE) Deputy Secretary of Energy, David Turk, and Mauritania's Minister of Petroleum, Mines, and Energy (MPME), Nani Ould Chrougha, signed an historic Memorandum of Understanding (MOU) on clean energy cooperation. This MOU will facilitate cooperation for deploying clean energy ...

The wind power plant in the northern town of Boulouar will also significantly increase the share of the country's energy mix, when it comes online (though timing is unclear). The significant share of renewable energy in Mauritania's total energy portfolio is impressive, especially compared to other countries on the continent.

The push towards renewable energy has never been more critical, and Infinity Power and Conjuncta are taking the lead with their Green Hydrogen Project in Mauritania. This innovative project aims to produce up to 8 million tonnes of green hydrogen or renewable energy equivalents, helping to reduce carbon emissions and promote sustainable energy production.

Mauritania: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO<sub>2</sub> - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
