"Not only is the Cube 800 a plug-and-play system, but it is also scalable and will provide customers with a complete hassle-free solar solution that can provide you with enough power to carry most of your residential needs". The Cube 800 is "movable", providing access to tenants of rented buildings.

Douglas council is to start producing its own sustainable solar energy. The local authority has approved funding for a solar farm to power some of its facilities. The generation facility would be built in Braddan and have a life span of around 20 years. It's thought the savings will mean it'll effectively pay for itself within five to seven years.

Plans have been submitted for the Isle of Man's first solar energy farm. The proposed 84-acre development in the south of the island would generate enough electricity to power nearly 8,000 homes ...
