TEXEL Energy Storage is a Swedish-founded company that, together with the US Department of Energy (DOE), develops the world's most cost-effective energy storage technology. Since its inception in 2010, the company has focused on phasing out fossil fuels and providing a circular energy solution to solve the big energy issues and climate crises.

The European Association for Storage of Energy (EASE) is glad to extend a warm welcome to its newest member, Texel Energy Storage, who joined EASE in October 2019. Mr Jacobsson, CEO at Texel Energy Storage, accepted to discuss with us TEXEL's expertise in energy storage and expectations from this collaboration with EASE.

TEXEL is developing cost effective, sustainable and circular hybrid energy storage / batteries and energy production solutions. In combination with renewable energy the TEXEL technology is not only cost competitive to fossil fuels, but as well competitive in terms of energy distribution, 24 hours a day, 7 days a week, 365 days per year.
