

National ground energy storage management notice

Does the energy storage strategic plan address new policy actions?

This SRM does not address new policy actions, nor does it specify budgets and resources for future activities. This Energy Storage SRM responds to the Energy Storage Strategic Plan periodic update requirement of the Better Energy Storage Technology (BEST) section of the Energy Policy Act of 2020 (42 U.S.C. § 17232 (b) (5)).

What is the energy storage strategy & roadmap (SRM) update?

This draft Energy Storage Strategy and Roadmap (SRM) update conforms to the language set forth in the "Energy Storage System Research, Development, and Deployment Program" as required by the Better Energy Storage Technology (BEST) section of the Energy Policy Act of 2020 (42 U.S.C. 17232 (b) (5)).

What is the implementation plan for the development of new energy storage?

In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

Is DOE preparing a draft energy storage SRM for public comment?

DOE is seeking comment from stakeholders to inform its draft Energy Storage SRM for public comment at a future time; notice of its availability will be provided through the Federal Register through a formal NOA. Interested stakeholders can view both the draft SRM and the official NOA.

What are the application scenarios for energy storage systems?

There is an extensive range of application scenarios for industrial and commercial energy storage systems, including industrial parks, data centers, communication base stations, government buildings, shopping malls and hospitals.

Who is interested in a draft energy storage SRM?

DOE is seeking input from the public, especially from interested individuals and entities, such as industry, academia, research laboratories, government agencies, and other stakeholders in the energy storage sector, on its draft Energy Storage SRM.

1. Authority This Battery Energy Storage System Law is adopted pursuant to Article IX of the New York State Constitution, § 2(c)(6) and (10), New York Statute of Local Governments, § 10 (1) ...

The Task Force identified three principal research areas associated with natural gas storage facilities: minimizing the risk of well failures; reducing health and environmental impacts of ...
