

Neoclo energy French Guiana

Does French Guiana have a pluriannual energy program?

As Guadeloupe, Martinique, Reunion and Mayotte, French Guiana has its own pluriannual energy programming. With an objective of energy autonomy set on the 2030 horizon, they have to accelerate the large-scale clean energy deployment to improve energy access.

How much CO2 does French Guiana produce?

In 2011, CO2 emissions in French Guiana relative to the electricity production was estimated at 360 GCO2/kWh which was four times higher than Metropolitan France (Figure 3). The lack of access to energy in the inland areas is a key issue at the heart of French Guiana's pluriannual energy programming.

What is French Guiana based on?

French Guiana as a French overseas territory is heavily dependent on imported fossil fuels. It is a two-tier society there is a large gap between the coastal and the inland areas concerning the energy access.

What is the climate like in French Guiana?

The climate in French Guiana is governed by the InterTropical Convergence Zone (ITCZ) and is based on a seasonal cycle with four periods: a dry season from July to November, a short rainy season from November to January, a short dry season from February to March and a rainy season from April to May.
