

New Caledonia formost solar energy equipment fsolar

New Caledonia is a French territory made up of a group of islands and archipelagoes of Oceania, located in the Coral Sea and the South Pacific Ocean. It has a wide lagoon often considered "the most beautiful lagoon in the world". The territory is also distinguished by biodiversity of astonishing richness and originality: the rate of endemic species is the highest in the world.

Since its commissioning in February 2023, the solar plant has generated over 47,350MWh of electricity, contributing \$728,023 in profits for the year ending December 31, 2023.
