Where are NEXTracker solar trackers made?

Nextracker Founder and CEO, Dan Shugar speaking at steel manufacturing plant opening. Critical steel components used in Nextracker's solar trackers are fabricated at this Las Vegas Unimacts facility. (Photo: Nextracker) Company Sets New Standard for American Manufacturing, Job Creation, and Supply Chain Resilience

Who is NEXTracker?

With more than 100 gigawatts of smart solar trackers installed around the world, no one has delivered more systems than Nextracker. Wherever we go, we offer training, invest in regional industry, and strive for a small carbon footprint. To learn more about our global reach and local impact, check out our Projects page.

What is NEXTracker's 570 MW solar & 954 MWh project?

The 570 MW solar and 954 MWh storage project is currently under construction by SOLV Energy. This supply chain localization milestone reaffirms Nextracker's industry leadership and commitment to American manufacturing and jobs, while providing operational excellence for customers and partners.

What is the best solar tracker?

Nextracker's flagship NX Horizon(TM) and all-terrain NX Horizon-XTR(TM) comprise the industry's most widely deployed smart solar tracker portfolio. Our field-proven TrueCapture(TM) and NX Navigator(TM) advanced monitoring and control platforms are the foundation of the most sophisticated software ecosystem in the solar tracker sector.

Why did NEXTracker invest in local manufacturing infrastructure in 2021?

Nextracker began investing in local manufacturing infrastructure in 2021 to establish a secure supply chain following disruptions during the global pandemic. Together with its manufacturing partners, the company has now expanded or opened more than 25 U.S. factories with over 30 GW of annual capacity.

Why do farmers need solar trackers?

Our proven independent row design architecture and light on land approach to utility-scale solar trackers provides farmers a new source of revenue that benefits both the environment and their local communities.

A: Nextracker uses anemometers around a site which goes to stow when the wind speed threshold is measured. We account for the dynamic loads at the peak wind speeds and stow angle for that site. Q: As solar plants move to more northern climates and snow loading becomes more of a factor, would Nextracker comment on snow loading considerations?

O estado de Minas Gerais é o maior estado brasileiro em capacidade de energia solar do país. A Nextracker é o fornecedor escolhido de tecnologia para sistema fotovoltaico e rastreador solar

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

4 ???&#0183; From sustainable tracker solutions that conform to uneven terrain and withstand extreme weather, Nextracker systems have resilience built in. With over 100 gigawatts shipped worldwide, Nextracker leads the solar industry with solar tracker technologies that optimize and increase energy production while reducing costs for significant plant ROI.

Facility aims to advance photovoltaic research and development, testing, and workforce development serving India and Middle East solar markets Nextracker (Nasdaq: NXT), a leading global provider of intelligent solar trackers, foundations, and software solutions, today inaugurated India's first Center for Solar Excellence (CFSE) in Hyderabad, India. Spanning ...

Combining industry-leading solar tracker and advanced foundations technology, Nextracker delivers comprehensive solutions to optimize solar development across all soil types Nextracker (Nasdaq: NXT), a global leader in solar tracker technology, today announced NX Foundation Solutions which includes the introduction of NX Anchor(TM)-- a solar tracker ...

New Delhi, 12 February 2024 - Nextracker (Nasdaq: NXT), a leading global provider of intelligent solar tracker and software solutions, today announced it has been selected for repeat order by Sterling and Wilson Renewable Energy Limited (SWRE) (BSE Scrip Code: 542760; NSE Symbol: SWSOLAR), one of the leading global pure-play, end-to-end renewable EPC solutions ...

As a leader in the clean energy transition, Nextracker provides critical yield-enhancing expertise and services needed to optimize the value, efficiency, and weather resiliency of solar power plants, offers the lowest system lifetime LCOE, and fully monetizes returns for developers, asset owners and investors.

Nextracker, a global solar tracker supplier, has shipped and delivered the industry's first solar trackers made in the United States that are expected to achieve 100% domestic content value for solar trackers under the Inflation Reduction Act (IRA), according to a press statement. These trackers will be used in SB Energy's Pelican's Jaw project, a 570-MW ...

FREMONT, Calif., Jan. 2, 2024 - Nextracker Inc. (Nasdaq: NXT), a leading global provider of intelligent solar tracker and software solutions, today announced the completion of Flex Ltd.'s spin-off of all of its remaining interests in Nextracker to Flex shareholders. This, together with certain other transactions relating to the spin-off also announced by Flex today, [...]

As a leader in the clean energy transition, Nextracker provides critical yield-enhancing expertise and services needed to optimize the value, efficiency, and weather resiliency of solar power plants, offers the lowest system

lifetime ...

Solar industry veteran Dan Shugar and his team founded Nextracker because no solar trackers met their requirements. So they redesigned, engineered and built an innovative system from the ground up. From the company's earliest days, we've brought together some of the best minds in the business, and our people collectively represent hundreds ...

The 570 MW solar and 954 MWh storage project is currently under construction by SOLV Energy. Nextracker began investing in local manufacturing infrastructure in 2021 to establish a secure supply ...

FREMONT, Calif., June 20, 2024 - Nextracker (NASDAQ: NXT), a global provider of intelligent solar tracker and software solutions, today announced it has acquired Ojjo in an all-cash transaction for approximately \$119 million. The purchase price is subject to working capital and other customary purchase price adjustments. Ojjo is a U.S.-based renewable energy company ...

The benefits of bifacial module technology can be significantly amplified when mounted on Nextracker's NX Horizon self-powered, independent-row single-axis solar trackers. Similarly, the TrueCapture smart control system can boost solar power plant production by continuously optimizing the tracking algorithm of each individual row in response ...

3 ???&#0183; Dive into the transformative world of solar energy with Howard Wenger, President of Nextracker, in the latest episode of The Solar Journey with Dr. Torsten Brammer. With nearly 40 years of experience, Howard has played a pivotal role in shaping the solar industry, from co-authoring net metering legislation to leading groundbreaking initiatives at SunPower, ...

Tecnologia de rastreador solar (tracker) desenvolvida pela empresa est&#225; presente nos principais projetos de energia solar centralizada, no pa&#237;s S&#227;o Paulo, maio de 2024 -- A Nextracker (Nasdaq:NXT), l&#237;der global no fornecimento de softwares inteligentes e rastreadores solares, ultrapassou o marco corporativo de 10 Gigawatts de rastreadores ...

The Nextracker video series on our Hydraulic Power Unit (HPU) and tools is intended to teach best practices during the installation of Nextracker single-axis solar tracker systems. The video series is meant for general guidance on operation and maintenance of our HPU and installation tools.

Nextracker excels in addressing the geotechnical challenges that face solar projects. Our suite of foundation solutions are designed to handle every soil type - from hard rock to expansive soils - ensuring reliable performance. Advanced engineering and innovative design mitigates risk and assure successful solar projects across all terrains.

Dan Shugar, founder and CEO of solar tracking company Nextracker, has had an illustrious career. Despite the tumultuousness of the solar industry, Shugar has led numerous companies to great success -- across sectors as
