

Why did Northvolt ett go bankrupt?

The bankruptcy follows the cancellation of the Northvolt Ett Expansion development project in Skellefteå, Sweden, as part of the new strategy launched in September to save the core business of Northvolt, the battery production that has started but has not yet managed to get off the ground as planned.

What is Northvolt ett?

Northvolt Ett has even become something of a local visitor attraction. Northvolt's mission is to build the world's greenest battery with a minimal carbon footprint. Northvolt's commitment to sustainability encompasses sourcing of raw materials, production, transportation of goods, and novel recycling technologies.

What happened to Northvolt ett expansion?

Northvolt Ett Expansion, a subsidiary with no employees, was meant to support the buildout of the company's sub-Arctic battery factory but has now applied for a court-appointed trustee after the project was scrapped. "We regret having to file this application.

How much debt does Northvolt ett expansion AB have?

But a court-appointed bankruptcy trustee told business daily Dagens Industri that the Northvolt Ett Expansion AB unit had debts estimated at between SEK2 billion and SEK3 billion (\$194 million to \$290 million). The troubles at Northvolt reflect a worsening market for battery makers in Europe.

Will Northvolt get a loan from Sweden's national debt office?

However, the bankruptcy further reduces the chances of Northvolt getting its hands on \$1.5bn of loans guaranteed by Sweden's National Debt Office as they were earmarked for the expansion of the Skellefteå plant.

Why did Northvolt expand the Skelleftea factory?

The expansion of the Skelleftea factory was intended to strengthen Northvolt's production capacity and support the growing demand for batteries for EVs and energy storage solutions.

On October 8, Northvolt announced that its subsidiary, Northvolt Ett Expansion AB - which manages the expansion project - had filed for bankruptcy with the Stockholm District Court. This followed the earlier suspension of the Northvolt Ett Expansion project, which has been touted as a key part of Northvolt's strategy to boost production ...
