What is Northvolt labs?

Home to our battery R&D and cell development projects, Northvolt Labs is a campus of facilities to drive innovation in battery technologies. From materials science, battery R&D and cell manufacturing, to full validation facilities and customer meeting spaces, at Northvolt Labs we have it all in one place.

Is Northvolt AB a good battery manufacturer?

This is being seen as a significant hit to the European domestic electric vehicle industry, as the company was the most developed battery manufacturer on the continent. Northvolt AB produces lithium-ion, lithium-metal and sodium-ion cells for e-mobility and energy storage, amongst other purposes.

Does Northvolt have a manufacturing facility in Skellefte?

Northvolt has, well ahead of schedule, received the environmental permit for the Northvolt Labs operations in V&#228;ster&#229;s and is in final negotiations around the permit for the large-scale manufacturing facility in Skellefte&#229;. Northvolt has since launch entered into strategic industrial partnerships with ABB, Vestas and Scania.

What happened to Northvolt labs and Northvolt ett?

Northvolt Labs, located in V&#228;ster&#229;s, Sweden, as well Northvolt Ett will keep functioning as normal, along with Northvolt AB's subsidiaries, Northvolt North America and Northvolt Germany. Northvolt's CEO, Peter Carlsson, announced that he would be stepping down, following the bankruptcy filing.

Will Northvolt fight China's EV battery supremacy?

The company was hailed as one of Europe's biggest hopes against China's EV battery supremacy. Northvolt's financial situation deteriorated in a matter of months. Swedish-based Northvolt, which was seen as one of Europe's best shots at fighting off China's electric vehicle battery supremacy, filed for bankruptcy yesterday.

Why should you choose Northvolt labs?

On-site facilities provide capabilities for evaluating cells for safety, robustness and lifetime performance. Northvolt Labs acts as a platform for innovating and refining new cell manufacturing technologies and processes. What we perfect here goes on to enable more efficient production lines in Northvolt gigafactories.

On November 21, 2024 (the "Petition Date") Northvolt Labs AB Jointly Administered under 24-90577. filed a voluntary petition for relief under Chapter 11 of the United States Bankruptcy Code.
