phone or email.

IGBT (Insulated Gate Bipolar Transistor) stabilizers are advanced voltage stabilizers that utilize IGBT technology to regulate and stabilize the voltage supplied to electrical and electronic equipment. IGBT Technology: IGBT stabilizers use Insulated Gate Bipolar Transistors, which are high-performance semiconductor devices capable of handling high voltage and current levels. ...

OMEGA POWER SP160 Series of Surge Protective Devices (SPD) provide economical protection against damaging transients and surge currents. With a NEMA 4X enclosure rating, this product series is also well suited for outdoor applications. Engineered to provide durability and long life, even under the most adverse conditions.

OMEGA Power System is the establishment of professional and foreign trained engineers performing the state of art business in the field IT and IT related items like Uninterruptible Power Systems, Network solution and satellite equipment. Looking into the target market that is quality customer we always focus on Multinational, National and Govt.

Utility-scale renewable energy developer Alpha Omega Power (AOP) has acquired and secured financing for the Caballero battery energy storage project. The 100MW/400 megawatt hours Caballero project battery energy storage system, located in Nipomo, California, will serve the California ISO (CAISO) market.
