

Outbackpower com New Zealand

Location: Riwaka New Zealand. Flexpower Two. Post by Guydav » Thu Apr 26, 2018 1:02 am. This new system ran for 8 weeks before an inverter failed, first a board was replace then an Inverter which was also faulty, finally a second Inverter under warranty. It has run since then October 2017 six months.

I think "kinda feeling a bit let down by Outback power" about not being able to source a new inverter to match those bought 15 years ago a little extreme, try buying anything new to match a 15 year old technology item.

We have recently rolled out a new software version for the MATE. This version is 4.1.6 and includes the following changes and fixes: 1 anges and feature additions to Automatic Generator Start A x for a rare condition of improper operation of countdown timers. B.Added support for using Aux output on FLEXmax charge controllers as an AGS port.

Location: New Zealand. Using aux output on FX2024. Post by asdex » Sat Jul 18, 2015 5:17 am. Hi, I am in the process of designing my system and I have pretty much all the components. I have attached my latest design and a control circuit shown in the salmon colour. This is to stop the water heating if the inverter is working.

New Features General Layout : On clients that register as mobile (Many tablets, tvs, and phones), we've added the option to switch between the responsive layout, and an un-responsive layout that more closely mirrors the old 4.8.5 website functionality.

Información sobre el reciclaje LIABILITY FOR PRODUCTS NOT BEING AVAILABLE FOR IMPORTANTE: Reciclaje de sistemas electrónicos y baterías Las baterías se consideran residuos peligrosos y se deben reciclar de acuerdo con la normativa local. Los inversores y otros sistemas electrónicos contienen

New Features. General: Complete website rebuild with modern frameworks for a responsive website design for devices of any size. All gateway and devices supported in version 4.8.5 will carry over and be available in 5.0. General: Dark Mode toggle. Say goodbye to blinding white light while checking your solar data in the evenings.

Location: Arahura Valley, New Zealand. Re: Mate3 Home screen flashes on & off. Post by bluespur » Tue Sep 28, 2021 11:28 pm. My understanding is that both the mate and the hub are powered via the comms cables from the inverter or charge controller, so I recommend checking and reseating your cables. Cheers Garth. Top.

As something to compare to, my last month was Solar 106 kWh From Generator 56 kWh to load 12 kWh I don"t have FNDC. Its winter here, so generator has been running. And this is consistent and I consider it normal.
