Subcomponent 2.2: Solar-home systems (SHSs) and products aims to increase the uptake of quality-verified SHSs and solar products in rural areas, through establishing a funding mechanism to provide catalytic grants and result-based financing (RBF) grants to eligible solar companies to extend their supply chains, develop markets, and scale-up the ...

Papua New Guinea cypark solar

"With 300 days of sunshine in many parts of the country, there's great potential to harness solar power for businesses and households," Lighting Papua New Guinea highlights. The program, supported by the governments of Australia and New Zealand, has helped bring so-called pico, mobile pay-go solar to some 1.6 million Papua New Guineans for the first time.

Papua New Guinea gained independence from Australia in 1975, and as a young democracy is currently undergoing a significant economic and social transformation. The extreme topography of the Papua New Guinean ranges and the subsequent isolation of its population has developed the most linguistically diverse country on the planet, with over 850 ...
