

Photovoltaic cable tray bracket

What is a cable tray bracket?

This bracket allows you to mount straight sections of cable tray to the wall or floor of your data center, network closet or industrial space and extend your cable management application. It mounts to the wall or floor with user-supplied hardware and then effortlessly snaps into the wire mesh.

What ancillaries can I attach to my PV array?

From service walkways to conduit, wire trays, optimizers, other MLPEs and monitoring equipment, you can use S-5! clamps, brackets and GRIPPERFIX™; universal utility mounting system to securely attach the above ancillaries to your PV array.

How does pvkit work?

The PVKIT attaches the modules directly to the seams or ribs of the roof without the need for the addition of rails. The PVKIT is mounted to S-5! clamps and brackets according to roof type. The weight of PVKIT mounting is only 15% of rail mounting. Think of the savings in freight and logistics, not to mention added load to the roof structure!
