Are PSB imagine B loudspeakers any good?

Powered by NAD Master Series electronics (the electronics partner of PSB from the parent company Lenbrook),the PSB Imagine B loudspeakers actually beam with musical energy. Expect to hear side imaging as good as you might expect from a \$28,000 pair of Wilson WATT Puppy version 8 loudspeakers. They are that good.

I was instantly drawn in and fell in love with the PSB sound. It had a wonderful sound stage that was real and detailed. I did not fall in love with the \$1k price-tag. I went home a changed man seeking that type of audio fidelity and clarity. I bought a pair of Energy RC-10s seeking to obtain that sound. I spent \$300 vs \$1k.
