Will Sudan's First Solar Park be built in the UAE?

According to the country's Ministry of Energy, an unspecified UAE solar company has committed to building several large scale PV plants across the country. These new projects would be granted a 20-year PPA and would be Sudan's first solar parks. Few specifics were outlined in the statement.

What is the Guide to solar energy in Sudan?

"The Guide to Solar Energy in Sudan" is the first booklet of its kind in Sudan that targets consumer awareness at a "grass root" level, proudly developed by Clean Energy 4 Africa, and supported by several of the largest solar energy companies in the country.

Will Sudan be able to deploy solar power in Africa?

If implemented, these projects would represent the country's first attempt to deploy utility scale PV capacity. Sudan has one of the lowest levels of solar development in Africa although it has one of the best levels of solar radiation in the whole continent.

What are the knowledge and data gaps in Sudan?

The idea behind this booklet is to address the knowledge and data gaps in Sudan that hinder the development of the solar energy sector. Over the past few years, demand for solar energy solutions by Sudanese homeowners, businesses, and farms has been rising and as a result, a lot of new companies entered the market.
