

Raychem energy United Kingdom

United Kingdom English Asia Australia English ... renewable energy, infrastructure and energy storage applications around the globe. We offer: Energy Efficiency Our solutions improve energy efficiency for our customers. ... the Raychem Corporation introduced the world's first commercially successful electric self-regulating heat tracing cable ...

If you wish to ship to an address outside the United States or a military/government location, please contact your local Anixter sales representative to discuss your options. In addition, Anixter offers Less-Than-A-Truckload "LTL" option for products that cannot be shipped via parcel shipping.

nVent RAYCHEM XL-Trace Edge self-regulating trace heating cables provide energy efficient and easy to use solutions for pipe freeze protection and flow maintenance of grease waste lines ... United Kingdom English Asia Australia English Bangladesh English ... Energy efficient and safe: self-regulating cable, advanced energy saving controls, no ...

nVent RAYCHEM, a leading provider of RAYCHEM heat trace cable and solutions for infrastructure, ... United Kingdom English Asia Australia English Bangladesh English ... Energy Transition. nVent is proud of its mission critical role in the energy transition. We design, manufacture, market, install and service high performance products and ...

nVent RAYCHEM EC-TS is an ambient pipe or slab sensing electronic thermostat that provides accurate temperature control. Used to control a single heat tracing circuit (30 A switching, 277 VAC, SPST) or can switch multiple circuits through a contactor. Includes a ...

We Connect and Protect a More Sustainable and Electrified World. nVent RAYCHEM heat tracing and leak detection solutions keep critical processes operational, protect pipes and equipment from freezing, keep the flow in transfer lines, provide winter safety and detect liquid leaks in pipes and tanks.. That's how we help keep people and environment safe and maximize your productivity ...

nVent RAYCHEM, a leading provider of RAYCHEM heat trace cable and solutions for infrastructure, ... United Kingdom English North America Canada English French United States English ... nVent is proud of its mission critical role in the energy transition. We design, manufacture, market, install and service high performance products and solutions ...

United Kingdom English North America Canada English French United States English ... Raychem Menu. Industrial. Industrial Applications. Pipe Freeze Protection; Long Pipeline Heating; ... low energy costs and control and monitoring functions. Details.

nVent RAYCHEM FS self-regulating trace heating cables provide energy efficient and easy to use solutions for pipe freeze protection. FS-C10-2X resists higher temperatures and is used for frost protection of dormant central heating pipes. ... United Kingdom English North America Canada English French United States English ... Energy efficient ...

nVent RAYCHEM electric snow melt systems can be used in commercial or industrial environments and have a significantly lower install and operating cost compared to hydronic heating systems. An Environmentally-Friendly Choice . Heat tracing cables can be easily installed in a variety of surfaces including concrete, asphalt, and pavers.

United Kingdom English North America Canada English French United States English ... Electric Heat Tracing; Heating Components and Accessories; Connections, Splices and Terminations; ... For connecting cold lead cables to nVent RAYCHEM self-regulating trace heating cables, a heat shrink polymer kit.

nVent RAYCHEM EC-TS is an ambient pipe or slab sensing electronic thermostat that provides accurate temperature control. Used to control a single heat tracing circuit (30 A switching, 277 VAC, SPST) or can switch multiple circuits through ...

United Kingdom English Asia Australia English Bangladesh English Cambodia ... Electric Vehicle Charging Stations, Electrical Vehicles. Energy. Fire-Rated Wiring. Fire Sprinkler. ... American English Raychem Winter Campaign Flyer English. English (Americas) Brochure ACS-30 Distributed Control English.

nVent RAYCHEM XTVR self-regulating trace heating cables are mainly used for freeze protection of pipes and vessels that require steam cleaning and process temperature maintenance, up to 302 °F/150 °C. They withstand intermittent ...

nVent RAYCHEM water pipe freeze protection keeps pipes from bursting with reliable and energy efficient electric snow melt heat trace cable solutions. ... United Kingdom English North America Canada English French ... nVent RAYCHEM electric heat trace cables for water lines prevents water in pipes, pumps and other equipment from freezing. ...

nVent RAYCHEM XTVR self-regulating trace heating cables are mainly used for freeze protection of pipes and vessels that require steam cleaning and process temperature maintenance, up to 302 °F/150 °C. They withstand intermittent exposure to 482 °F/250 °C. The fluoropolymer outer jacket (-CT) provides high chemical resistance against aggressive organics and corrosives.

nVent RAYCHEM VPL power-limiting trace heating cables are mainly used for process temperature maintenance applications that require steam cleaning, up to 455 °F/235 °C and withstand intermittent exposure to 500 °F/260 °C. VPL offers high power output at high temperatures, which can reduce the number of heating cables required and is hazardous area ...

United Kingdom English Asia Australia English Bangladesh English Cambodia ... Raychem Menu. Industrial. Industrial Applications. Pipe Freeze Protection; Long Pipeline Heating; ... Electric Heat Tracing; Control, Monitoring and Sensing; Electronic Thermostats;

United Kingdom English Asia Australia English Bangladesh English Cambodia ... Raychem Menu. Industrial. Industrial Applications. Pipe Freeze Protection; Long Pipeline Heating; ... Energy Transition Industries. Biofuels; Carbon Capture; Hydrogen; Liquefied Natural Gas; Commercial.

nVent RAYCHEM RAYSTAT V5 is an electronic line sensing or proportional ambient sensing (PASC) controller for self-regulating heating cables. Wall mountable for outdoor location, it measures ambient temperature and determines the cycle time when the heating cables will be energized, resulting in very significant energy savings.

nVent RAYCHEM QuickNet is a electrical floor heating mat with 2 power output variants (90 W/m²; and 160 W/m²;) and available in kits with and without thermostat, ideal for renovation and suitable for new build. The product is self ...

nVent RAYCHEM T2Red is a self-regulating floor heating cable for new build and renovation. It can be applied under any type of floor surface without risk of overheating. Ideal for natural stone and ceramic tiles, also temperature sensitive floors such as wood and laminate. The T2Red packs include the elegant and user-friendly SENZ WIFI touchscreen thermostat and all accessories ...

With accelerating electrification, it is important to use solutions dedicated to the industry. That's why nVent RAYCHEM provided a complete and efficient electric heat tracing system for the High-Quality Coal and Dimethyl Carbonate (DMC) Utilization Project, which is currently the world's largest coal chemical project.
