

Replace the alternator belt of Lefeng 1 4

How much does alternator belt replacement cost?

The alternator belt replacement cost (also known as serpentine belt, v-belt, drive belt or fan belt) are made up of material costs (approx. €20 - €30) and labour costs (approx. €60 - €200). For most vehicles, costs of around €80 - €230 can be expected.

How do you fix a loose alternator wire?

Tuck the loose wire aside so it doesn't snag on the alternator when you remove it. Relieve tension on the belt with the auto-tensioner (if equipped). Some vehicles use the alternator itself to apply tension to the serpentine or accessory belt, but others use an auto tensioner pulley.

How do I Change my alternator?

Locate your alternator and the alternator belt. Loosen it, and then remove it. Check the condition of the belt; if it is too worn, you should consider replacing it. Rebranchez les connectiques. Changing your alternator yourself is feasible for everyone. Follow our tuto for who will guide you step by step in the change of your alternator.

How long does alternator belt replacement take?

The average alternator belt replacement time will take roughly between 30 - 60 minutes, provided that no further work is necessary. The alternator belt replacement is therefore surprisingly fast when compared to other car repairs. A big advantage when changing is the easy access to the alternator belt.

Do I need to change the alternator belt?

In most cases it is sufficient to change only the alternator belt (or serpentine belt) and there are no additional costs. Occasionally, however, an additional change of alternator belt tensioner and pulley makes sense, as the material costs are low compared to the labour costs.

How do you remove an alternator belt?

Remove the wrench or breaker bar from the tensioner pulley once this is done. Slide the belt over the alternator pulley. If you loosened the alternator to remove the old belt, reverse that process by sliding the belt back over the alternator pulley. Again, take care not to place too much pressure on the loosened bolts of the alternator.

Total cost to replace the alternator on a VW Golf = between €269.99 + VAT (reconditioned alternator) and €424.99 + VAT ... Rotate the tensioner clockwise using a spanner and insert a drill bit to lock the tension off the alternator belt. If you are reusing the belt, mark the direction in which it rotates with tipp-ex or a permanent marker. ...

get a 15 mm ring spanner and put it on the aux belt tensioner (the bolt in the middle of the plastic wheel) and

Replace the alternator belt of Lefeng 1 4

pull it up as if to open the nut this will move the whole tensioner on a spring then while holding the spanner slip the belt off and release the spanner get your new belt and position pull up the tensioner and slip on the new belt

Hey guys, anyone got any experience with changing the alternator on a 1.4 MiTo? I really cannot get to the top bolt, the air con pump is in the way. Do I have to take the air con pump out, or drop the engine? I did automotive repair at college, so I know my way around a set of spanners but I'm well out of practice ?
