

Réunion solar power systems bvba

Does Albioma have a solar power plant in Reunion Island?

In 2019, Albioma commissioned Reunion Island with a solar power plant equipped with an innovative energy storage system, in Port-Ouest.

Where are photovoltaic power plants located in Réunion Island?

With a 36,8 MW installed capacity in 2021, Albioma is the leading producer of photovoltaics in Réunion Island. These photovoltaic power plants are all located in areas where there is no conflict of use, such as La Star, which was built on a landfill site that was still in operation.

How does Albioma produce electricity in Réunion Island?

As the leading electricity supplier in Réunion Island, Albioma produces 46 % of the energy available in the grid by operating two thermal biomass power plants, a bioethanol combustion turbine and a large photovoltaic fleet.
