6. Select the "pay with monthly installments" button. The bottom button should light up to continue to payment options. You will then go through a similar process that you did when signing up for the Affirm app. You'll enter your date of birth, estimated annual income and last four of SS.

In a "pay-as-you-go" (PAYG) business model, a company essentially rents consumers a solar home system that comes with a battery, a charge controller, a solar panel, LED bulbs and a mobile charger. Basic systems have enough power to charge phones and lights, and larger ones could power small appliances like radios or TVs.

If done in this way to avoid wastage of resources then, you don't have to buy a 1 Kw Hybrid inverter then have to buy another inverter when funds are available for a 2Kw system as you continue to build your system towards your 3Kw solar system goal.
