The photovoltaic fixed bracket is an important part of the solar photovoltaic power generation system. It is mainly used to firmly support photovoltaic components (such as solar panels) and ensure that they can face the sun at a fixed angle for a long time, thereby effectively absorbing and Convert solar energy into electrical energy.

After years of study and after having gained specialized experience in the field with over 5,000 customers for whom we have produced more than 100,000 brackets, our technicians have created the "perfect bracket" for f ixing photovoltaic systems on tiles. In fact, with its innovative shape, this bracket adapts to the tiles, hooking perfectly to ...
