Abstract: As renewable energy production is intermittent, its application creates uncertainty in the level of supply. As a result, integrating an energy storage system (ESS) into renewable energy ...

A novel isobaric adiabatic compressed air energy storage (IA-CAES) system was proposed based on the volatile fluid in our previous work. At the same time, a large amount of waste heat ...

Compressed air energy storage (CAES) has emerged as the preferred solution for large-scale energy storage due to its cost-effectiveness, scalability, sustainability, safety, ...
