If SEPCO did not provide the pole, the installer will need to source 1/2" - 5/8" diameter stainless steel bolts for mounting the solar and fixture bracket. SEPCO Solar Power Assemblies are specified for many applications; therefore, the bolts and wires are not included for no pole orders as the length and distance are unknown.

COSt SaVingS: Solar provides cost savings because the sun acts as a "utility energy company" without cost. EaSy inStaLLatiOn: Solar panels are easy to install, only needing basic wiring and bolts for secure conversion. LOw VOLtagE: Solar utilizes lower voltage, typically 12 Volts, which means safer usage and installation.

The founder of SEPCO has over 30 Years of experience in the solar industry, starting out in PV and hot water, later on going to develop and patent the first solar street light system.
