

Sierra Leone solar panels inia and their prices

Why is solar power costly in Sierra Leone?

Solar power is delivered at a very high cost in Sierra Leone, despite the country having an estimated hydro project potential of more than 1000MW and abundant sunlight for solar power generation, with opportunities above 240 MW.

What is the energy policy of Sierra Leone?

In the autumn of 2013 the Government of Sierra Leone issued a National Energy Policy and a Strategic Energy Plan for the coming years. Although fossil fuels will remain the main energy source for the country in the short-term, according to the policy, renewable energy sources will become more important in the future.

What is the Sierra Leone energy revolution?

At the start of 2016, Sierra Leone's Ministry of Energy and DFID organised the Sierra Leone Energy Revolution with support from Adam Smith International, SOBA and Power for All. The event was part of the UK's Energy Africa campaign which aims to help the continent achieve universal energy access by 2030.

Is Sierra Leone a post-Ebola recovery pillar?

keen interest in the performance, availability and access to energy throughout Sierra Leone as a post-Ebola recovery pillar. The GoSL is targeting increased large scale energy generation, improved distribution and improved performance of the solar home system (SHS) energy market concurrently.

Can electric vehicles be developed in Sierra Leone?

The development of electric vehicles faces numerous hurdles in Sierra Leone, where the national grid suffers from chronic underperformance and frequent outages, and a six-month rainy season hampers the functioning of solar panels.

How bad is air pollution in Sierra Leone?

Like in much of West Africa, lengthy traffic jams in Sierra Leone's major cities and poorly maintained vehicles with inefficient exhausts exacerbate the emissions problem. The United Nations Environment Programme (UNEP) says that in 2021, fine particle air pollution killed 1,200 people in Sierra Leone, a country of 8.5 million people.

This 100MW Solar Photovoltaic Power Project at Giema and Forya in Dama Chiefdom, Kenema District will provide a unique opportunity for Sierra Leone to address its energy deficit using an independent power producer (IPP) solution to allow for affordable prices.
