

# Smart energy solar Uganda

SmartEnergy buys renewable energy certificates (RECs) produced by wind, solar, hydro, and geothermal facilities located in the United States. Buying national RECs helps boost the nation's renewable industry while reducing our reliance on fossil fuels. 100% of SmartEnergy's customer's electricity usage is matched by RECs.

The project aims to provide farmers in Uganda with a means to adapt to climate change and build resilience that enables them to maximize production, thereby improving food and income security. The project is focusing on establishing sustainable delivery mechanisms of Solar Powered Irrigation Systems (SPIS) for farmers in Uganda.
