What services does EPC energy offer?

With over 650 MWh installed and commissioned, our experienced team can provide in-house design and engineering services, along with end-to-end support including commissioning, operations & maintenance, plus extended warranties. We make energy efficiently. Copyright © 2024. EPC Energy, Inc. CSLB #1086692.

Does EPC power offer long-term service agreements?

Our team of highly trained and experienced service technicians is available to provide support whenever you need it. Yes, EPC Power offers long-term service agreements, including Operations & Maintenance (O&M) and warranty coverage. Up to 4 throat-connected or 5 cable-connected CAB1000s may be paralleled.

What is a battery energy storage system?

Battery Energy Storage Systems (BESS) play a pivotal role in various applications to enhance energy efficiency and sustainability. We store excess solar and wind energy in batteries to address intermittent issues for consistent grid delivery.

Our most compact solution, occupying a 7' x 5' x 8' footprint, is the easiest of our C and I battery energy storage systems to install and is well-suited for grid-tied or off-grid projects. These fully ...

The exponential growth of "hyperscale" data centers has generated an increased demand for reliable energy. Traditional energy storage solutions, such as uninterruptible power supplies ...
