

# Solar Mount Warranty

What is a 10 year solar mounting system warranty?

Unlike most other solar mounting system companies, the 10 year mounting system warranty not only covers the actual products, but also the 'behind the scenes' calculations that are crucial to ensure the solar array is correctly and suitably secured.

Do solar panels have a warranty?

The batteries do have limited warranties but as there are no moving parts involved not a lot can go wrong, if there are any inherent manufacturing problems with a cell or unit this will most likely come to your attention well inside the warranty period. Inverters are the single most expensive component to replace in your solar panel system.

How long is a battery warranty?

25-year limited power warranty (typically 10 years at 90% power output and 25 years at 80% power output). Workmanship and materials warranty of one or two years. Batteries (non-grid systems / hybrids) roughly 5-15 years. Inverter (s) warranty of between 5-10 years.

How long does a power supply warranty last?

Manufacturers offer warranties of varying lengths. On average these consist of: 10-year limited product warranty (materials and labour). 25-year limited power warranty (typically 10 years at 90% power output and 25 years at 80% power output). Workmanship and materials warranty of one or two years.

How long do solar panels last?

Workmanship and materials warranty of one or two years. Batteries (non-grid systems / hybrids) roughly 5-15 years. Inverter (s) warranty of between 5-10 years. There are many factors that must be borne in mind when considering warranties for your solar panel system.
