Discovery of Pitcairn Island . Captain Philip Carteret first spotted Pitcairn Island in 1767 but couldn't land due to rough seas. He miscalculated its location, marking it miles away from its true position. Years later, Captain Cook showed some interest, but it wasn't until the Bounty mutineers arrived in 1790 that the island gained attention.

On July 2nd, a total solar eclipse will cross the shores of uninhabited Oeno Island, one of the group's four islands, at 10:23 a.m. lasting for two minutes and 51 seconds. ... this tour will be the first of its kind to visit all ...
