Solar energy is a clean, renewable source with no emissions and low recurring costs. In recent years the technology of solar energy and its usage has experienced unprecedented change and rapid growth.

From solar panels and inverters to mounting systems and accessories, all SolaX Power equipment is designed. Each component is subject to rigorous quality assurance testing, ensuring it will withstand extreme temperatures, vibrations, and other environmental factors.

The average solar unit in Sri Lanka is about 5-6 KWs. How much you will save depends on how big your array is, the capacity of your storage system, and the weather--and, of course, where you live and the sunlight available to you.

When it comes to solar panels, efficiency is key. The ability to convert sunlight into electricity at a high rate is what sets solar panels apart. Traditional silicon panels have an efficiency rate of around 20%, which is respectable but leaves room for improvement. Perovskite solar panels, on the other hand, offer a potential efficiency rate ...

Wholesale Solar Panels For Sale Homeowners and all types of businesses these days are seeking ways to cut down on their power consumption bill and reduce the overall operational cost. For this purpose, solar energy is the best alternative for them to be cost-effective and energy-efficient. In the upcoming decade, energy costs are estimated to become double. Solar panels ...
