

The Ivorian government and the International Finance Corporation (IFC) have announced the results of the pre-qualification process for two 60 MWp solar photovoltaic power plants in Laboa and Touba. These projects will be implemented through public-private partnerships (PPP). There is news about the "Scaling Solar" program in Ivory Coast.

Although Ivory Coast has about 10 smaller solar power plants serving villages at a local level, Boundiali is the first on the national grid. The country, which already exports about 10 percent of ...

Available in French.. The Ivory Coast is set to begin construction of the \$63.5 million Ferke Solar power plant in Sokoro, which will have an installed capacity of 52 MW. Announced by government ...

Abidjan, Ivory Coast, is a highly suitable location for solar photovoltaic (PV) power generation due to its relatively consistent average daily energy production per kW of installed solar across all seasons this city, the average kWh per day per kW of installed solar is 4.79 in Summer, 5.36 in Autumn, 5.25 in Winter, and 5.53 in Spring.

The government of Côte d'Ivoire collaborates with PFO AFRICA in a historic initiative, signing agreements for a 52 MWp photovoltaic solar power plant. Representing the largest independent power producer (IPP) project in Ivory Coast, the FERKE SOLAR venture underscores the nation's commitment to sustainable development, energy independence, and ...

Ivory Coast has taken a crucial step in its energy transition with the opening of its first photovoltaic solar power plant in Boundiali. This project, emblematic of the future of renewable energies in the country, aims to reduce dependence on fossil fuels and promote a more sustainable energy mix.

Solar photovoltaic (PV) power generation in Ivory Coast was estimated to be higher in January, at 133.2 kilowatt hours (kWh). According to the source, the estimation was calculated for a period of ...

Ivory Coast inaugurates its first solar power plant in Boundiali, marking a shift towards renewable energy. The project aims to reduce reliance on fossil fuels and double its capacity to 80 MWp by 2024. It employs 350 locals and serves as a model for sustainable development in the region. Ivory Coast celebrates a milestone with the inauguration of its first ...

Ivory Coast aims to increase its installed power capacity to 3.5 GW by 2025 and 8.6 GW by 2040. As part of this strategy, the country's Ministry of Mines, Petroleum and Energy signed a memorandum of understanding (MoU) with renewable energy company Kong Solaire earlier this month to construct a 50 MW solar power plant in the Tchologo region.. This comes ...

The African Power Platform aims to connect private and government stakeholders in Africa's power sector. The platform helps circulate and propagate tenders, intelligence and business opportunities to its members. Developers, power producers, ministries, utilities, regulators, financiers, and other like-minded individuals can join APP to share possible ...

AMEA Power Expands its Presence in West Africa by signing Agreement with the Government of Ivory Coast to Deliver 50MW PV Solar Plant January 17, 2023 Highlights The 50-megawatt project will support the Ivory Coast's clean energy ambitions by generating more than 85GWh of clean . . .

Ivory Coast advances solar power plant development. Ten multinationals qualify for partnership in the Bafing region. Ivory Coast is progressing in solar power plant development, with ten multinational companies qualifying for partnership. The plants, to be located in the Bafing region, are part of a public-private partnership.

Ivory Coast celebrates the unveiling of its inaugural solar power plant in Boundiali, marking a significant stride towards its objective of sourcing 45% of its energy from renewable sources by 2030.

"After having experimented fossil fuels and hydroelectricity, Ivory Coast, which is rich in renewable energy potential, is about to commission its first solar power plant, marking its intention to vary its energy mix as much as possible," stated Sidibé during the plant's inauguration ceremony, adding, "Resolved to position itself as ...

The concession agreement was signed by H.E. Mamadou Sangafowa-Coulibaly, Minister of Mines, Petroleum and Energy of the Ivory Coast and Hussain Al Nowais, Chairman of AMEA Power. The project will be the first solar Independent Power Project (IPP) in Ivory Coast and will be located at the city of Bondoukou in the north-eastern region of Gontougo ...

German and EU cash will be used to finance the first solar power station in Ivory Coast, Germany's embassy in Abidjan said Wednesday, as the West African country attempts to boost its use of ...

The Atinkou project is a 390MW gas-fired, combined-cycle power plant (CCPP) under construction in Jacqueville, Ivory Coast. Previously known as the Ciprel V power plant, it is being developed by Atinkou, a subsidiary of French company Eranove. A producer of water and electricity in Africa, Eranove entered a concession agreement with the ...

The Ivory Coast is set to begin construction of the \$63.5 million Ferke Solar power plant in Sokoro, which will have an installed capacity of 52 MW. Announced by government spokesperson Amadou Coulibaly in April, the ...

Renewable energy company Kong Solaire signed an MoU with Ivory Coast's Ministry of Mines, Petroleum

grid. The Ivory Coast aims at producing at least 42% of its power from renewable energy sources by 2030. For solar in particular, it targets 400 MW of generating capacity by the end of next decade. You can subscribe to our M& A newsletter here

Egyptian company Elsewedy, Infinity Power Holding, and Nareva Holding, Moroccan group Al Mada's subsidiary, are also among the potential developers of the solar plants. The selected IPPs will build solar photovoltaic power plants capable of delivering 60 MW to the Ivory Coast's national grid.

The Boundiali solar PV plant is built at a cost of EUR40 million, and the financing agreements were signed in 2019. The solar project is financed by a concessional loan of EUR27 million from the German development bank KfW and a grant of EUR9.7 million from the European Union (EU). The Ivorian state contributed the remaining sum to reach the necessary financing.

Laboa Solar PV Park is a 30MW solar PV power project. It is planned in Woroba, Ivory Coast. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the announced stage. It will be developed in a single phase. The project construction is ...

The 75.6-million-euro (\$82.1-million) cost of building the solar power station was financed by Ivory Coast, a German loan and a European Union grant. "This is the result of the EU's long-standing commitment to the renewable energy sector, with almost 140 million euros since 2017," EU ambassador to Ivory Coast Francesca Di Mauro told AFP.
