

Solar products in Eritrea

What are the benefits of solar energy in Eritrea?

The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel. A major benefit of solar energy is that it does not pollute the environment and saves money in the long run even if its installation cost is quite high.

Where is Eritrea's first solar plant?

The government of Eritrea has received a \$49.92 million grant from the African Development Bank to fund a 30 MW photovoltaic plant in the town of Dekemhare, 40 km southeast of the capital Asmara. It will be the country's first large-scale solar plant.

Why should Eritrea invest in a solar plant?

This initiative aims to address the energy needs of Eritrea while promoting sustainability and reducing carbon emissions. The solar plant is anticipated to contribute to the nation's energy independence and support its commitment to renewable energy development.

Does Eritrea have solar power?

Eritrea's weather, characterized by long sunny days throughout the year, makes it suitable for harnessing solar power. Data from the wind and solar monitoring stations installed in many parts of Eritrea show that the country has a great potential, around 6 kWh/m² of solar energy.

What is Eritrea's main source of energy?

Eritrea's major source of energy is petroleum, which drains the foreign currency reserves of the country and is globally a major cause of pollution. The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel.

Which countries use solar power as an alternative source of energy?

Globally, the use of solar power as an alternative source of energy is growing. In Africa, Egypt, Morocco, Ghana and South Africa are leading in their extensive use of solar energy. Morocco is home to Africa's biggest solar plant, Noor Solar Complex, and South Africa hosts eight of the ten largest solar plants in Africa.

The Ministry of Energy and Mines in Eritrea has awarded a contract to China Energy Engineering Group Shanxi Electric Power Construction Co., Ltd. for the design, supply, and installation of a 30 MW solar PV plant. Learn more about this significant step towards bolstering Eritrea's renewable energy infrastructure.

We are a Solar Controllers supplier in the Eritrea, providing a variety of Solar Controllers, if you are interested in the wholesale price of Solar Controllers in the Eritrea, please contact us.

Solar products in Eritrea

You can contact us by email at sales@machineequipments for reliable Solar Panel supplier, we are well-known for our world-class Solar Panel and one-stop bulk and trustable Solar System Products manufacturers in Eritrea.
