Solomon Islands solar panels 3kw system price

4. Solomon Power's meter records the power supplied from the grid that is consumed in your home, and any power exported. 5. Any surplus power from your solar panels flows back into the Solomon Power grid. Solar Power System Components Solar panels Solar panels come in different outputs and sizes. Normally solar panels are about

A typical 3kW solar system will have between nine and 12 panels, yet the exact number will depend on the wattage of each panel as well as the amount of sunlight your home receives. Most 3kW solar systems will consist of panels that have a wattage (W) of 370 each, meaning a system of this size would likely only require nine panels.

Solomon Power also supports the installation of small scale grid connected micro embedded generators that convert renewable energy into electricity that can be used in your home or business premises. Sources of renewable energy can ...
