Should grocery stores use lockers?

The use of lockers can also provide great labor cost savings for grocery retailers. Store employees can place multiple orders in lockers at the same time, which is more efficient than bringing orders to customers' cars or retrieving orders when customers arrive in the store.

Where should grocery lockers be placed?

Grocery lockers can be placed in or near store entrance ways to optimize convenience for retailers and minimize disruption to traffic flow. Many are opting to have them outside as it means less pressure on store space and serves customers who, because of Covid-19, want to avoid having to go into the store.

What is a smart grocery locker?

Smart grocery lockers that offer software-hardware integration and application functionality to enable touch-free operations for store workers and customers, combined with SaaS based solution, enhances operational efficiency.

Why do stores have lockers?

Store employees can place multiple orders in lockers at the same time, which is more efficient than bringing orders to customers' cars or retrieving orders when customers arrive in the store. Lockers can also enhance order accuracy, especially during busy times when employees are multitasking.

What is a grocery locker?

Grocery lockers provide a contactless, convenient solution for shoppers that is often priced by retailers at a lower cost than home delivery. In addition, rather than waiting at home for delivery, they can retrieve their groceries at their local supermarket at a convenient scheduled pickup time or at a mobile grocery locker.

Does Aldi have parcel lockers?

Customers will be able to collect and return online orders from other retailers at select Aldi stores, thanks to the supermarket's new partnership with parcel locker provider InPost. Throughout March, InPost lockers will be available outside 22 Aldi stores across the country, with a full list of locations available below.
