

Where are Svalbard and Jan Mayen located?

The islands are located north and northwest of Norway, within the southern limits of Arctic sea ice -- the northernmost point of Svalbard is within a 620 mi (1,000 km) of the North Pole. Svalbard is approximately 24,570 square mi (63,000 square km); Jan Mayen is approximately 145 square mi (373 square km).

What is the difference between Svalbard and Jan Mayen?

Svalbard is an archipelago in the Arctic Ocean under the sovereignty of Norway, but is subject to the special status granted by the Svalbard Treaty. Jan Mayen is a remote island in the Arctic Ocean; it has no permanent population and is administered by the County Governor of Nordland.

How many people use the Internet in Svalbard and Jan Mayen?

According to Kepios analysis, 37.0 percent of the population in Svalbard and Jan Mayen, or 944 people, did not use the Internet at the beginning of 2022. This means that approximately the remaining 63.0 percent, or 1,338 people, used the Internet.

Who governs Svalbard?

The archipelago is administered by the Governor of Svalbard, which is subordinate to the Norwegian Ministry of Justice and Public Security. Unlike the rest of Norway (including Jan Mayen), Svalbard is a free economic zone and a demilitarized zone, and is not part of the Schengen Area nor the European Economic Area.
