Who is Svevind Energy Group?

SVEVIND Energy Group announces today that it has completed a transaction with the leading Norwegian utility Statkraft. Our Swedish subsidiary SVEVIND Nordic AB, the successor to SVEVIND AB, is now officially part of Statkraft. The... The first week of October 2022 marked an important milestone in the history of Svevind's "Project Sandbacka".

What makes Svevind Nordic a good company?

In Statkraft, Svevind Nordic gets a strong owner who can continue the important work we have done and progress the project pipeline while providing for a continued positive work environment for the employees", says Wolfgang Kropp, founder and CEO of SVEVIND Energy Group.

How does Svevind AB manage a wind farm?

Svevind AB establishes a subsidiary for the project, which is then responsible for project planning. Construction and ownership may also be through Svevind AB's subsidiaries. Once the wind farm has been approved, Svevind AB or the relevant subsidiary may sell all or part of the project, or retain it for its own construction and operation.

Who does Svevind work with?

Svevind works with consultants, who are specialists in wind calculations, planning, project design, consultations and environmental impact descriptions. Once the project descriptions and environmental impact assessments are complete, the permit application or building notification is submitted.

Why did Svevind energy get a partnership with Semurg invest?

One core element for this is the signed cooperation agreement with Semurg Invest, the owner and operator of the largest terminal facility of the port of Kuryk on the Caspian Sea. Another milestone was reached just before year ended as SVEVIND Energy received confirmation that Germany is backing our project with an so called investment guarantee.

Why did Svevind energy buy Markbygden net?

In order to drive this process forward as effectively as possible, SVEVIND Energy divested the grid company „Markbygden Net" operating Sweden's most powerful substation, the 1700 megawatt substation Råbacken and related grid infrastructure to the Nordic grid operator Ellevio.
