What is the China energy storage Alliance?

Subscribe to our newsletter The China Energy Storage Alliance is a non-profit industry association dedicated to promoting energy storage technology in China.

What is the Energy Storage Research Alliance (Esra)?

The Energy Storage Research Alliance will focus on advancing battery technology to help the U.S. achieve a clean and secure energy future Berkeley Lab's contributions to ESRA include world-leading energy storage research expertise and capabilities, such as the Advanced Light Source. What is energy storage project deployment?

ESTAP facilitates the deployment of energy storage projects through public/private and state/federal partnerships. This is done by matching state-supported large-scale energy storage project proposals with the research needs of Sandia National Laboratories and DOE's Energy Storage Research program in the Office of Electricity.

What is the future of energy storage?

"Meeting the rising demand for advanced and sustainable energy storage solutions is paramount, especially for heavy-duty transportation and the electric grid. Unlocking unprecedented performance beyond current lithium-ion technology is crucial. Our path forward rests in robust research, firmly rooted in fundamental science."

What is the Technology Strategy assessment on thermal energy storage?

This technology strategy assessment on thermal energy storage, released as part of the Long-Duration Storage Shot, contains the findings from the Storage Innovations (SI) 2030 strategic initiative.

What is the New York battery & energy storage technology consortium?

The New York Battery and Energy Storage Technology (NY-BEST(TM)) Consortium, established in 2010, serves as an expert resource for energy storage-related companies and organizations looking to grow their business in New York State.

On October 11, 2017, China released its first national-level guiding-policy document covering energy storage. The document, "Guiding Opinions on Promoting Energy Storage Technology ...
