New solar capacity 10 times cheaper than gas, says Rystad. Operating gas-fired power plants would be 10 times more expensive in the long-term than building new solar capacity in Europe according to a new study. Europe could replace gas with solar and onshore wind power generation by 2028.

Solar panels are the muscles of an installation, but the inverter is the brain. It's unlikely that you'll be able to pick a better inverter for your installation than a decent consultant. But picking the best inverter when you are buying solar panels in the Netherlands can differentiate a decent consultant from a great consultant.
