Yep. I buy on price, but I am willing to pay a slight premium for panels made by well known brands. Half of the panel just stopped working. Not sure why. It was on two solar panels that a tree was just starting to shade. Both the lower half of ...

I've created a chart here which represents over 90% of the panel brands being quoted in Australia today. Every brand on this chart is a brand that, in my opinion, I'd be comfortable installing on my roof. Please note that this chart is not comprehensive, and there will be some good brands out there that I haven't put on the chart - but again, if you get a quote for solar panels today, ...

For example, the Enphase IQ-8 can be paired with no more than a 295-watt panel because the peak output of the microinverter is 245 watts. So, if you pair the Enphase IQ8 with a 400-watt solar panel, you will still only get 245 watts. The peak output of the microinverter caps your solar panel production.
