In August 2023, New York-based BlueRock Therapeutics signed a collaboration and option agreement with bit.bio to discover and manufacture iPSC-derived regulatory T cell-based therapies. bit.bio has its own opti-ox precision cell programming technology, which is used for controlling the expression of transcription factor combinations ...

Revolutionize your plant propagation and tissue culture work with the BioCoupler(TM), the simplest and most efficient temporary immersion bioreactor on the market. Designed by Plant Cell Technology, it seamlessly connects jars for optimal fluid flow, aeration, and retention. Upgrade your process with BioCoupler(TM)

Drug Target Review's Taylor Mixides interviews Cellarity's CEO Fabrice Chouraqui about applying Artificial Intelligence (AI) and Machine Learning (ML) to evolving single-cell technologies.. Cells are the units of life, yet they also drive disease. By applying AI/ML to the evolving gamut of single-cell technologies, we can better understand how cells transition from ...

Solar energy technologies manufacturer 1366 Technologies has agreed to supply 700MW of wafers to South Korean firm Hanwha Q Cells over the next five years. The wafers using 1366's Direct Wafer technology will be supplied from the company's planned manufacturing facility in New York, US, which is expected to enter service next year.

The 500-acre site will be home to a 2 million-square-foot, energy efficient facility with an annual manufacturing capacity of 21-gigawatt hours (GWh) for the production of lithium-iron-phosphate (LFP) battery cells. Amplify ...

The next step was to validate these findings, assumptions, and sizing with industry experts across the value chain through primary research. Both top-down and bottom-up approaches

The birth of Plant Cell PPM(TM) in 1998--an all-encompassing solution that revolutionized the industry. This chapter in our story reflects not just a scientific breakthrough but a testament to our resilience, collaborative spirit, and commitment to pushing the boundaries of what's possible.

This strategic collaboration will advance zero-emissions technology for electric commercial vehicles and industrial applications. Amplify will soon begin construction of a 21-gigawatt hour (GWh) factory in Marshall ...
