Solar Panel Incentives Available Nationwide. Federal Solar Investment Tax Credit. One of the best solar incentives is offered on a national level by the federal government: the solar investment tax credit. This incentive allows you to get 30% off the installation cost back in tax savings and it's available to everyone, as long as they opt for solar ownership as opposed to a lease or PPA.

Rebates are a great way to save money on solar panels. Solar rebates are often tied to a specific utility and paid directly to the solar installer to reduce the customer's up-front cost of going solar. This reduction in cost affects the amount of solar tax credits you can receive. For example, if you get a \$1,000 rebate off the cost of a ...
