What is Western Sahara resource watch?

Western Sahara Resource Watch works to uncover the plunder of the territory and to keep the companies and governments accountable for their support to the occupation. New report: Morocco uses green energy to embellish its occupation.

Is Western Sahara a disputed territory?

Western Sahara[a] is a disputed territory in North-western Africa. It has a surface area of 272,000 square kilometres (105,000 sq mi). Approximately 30% of the territory (82,500 km² (31,900 sq mi)) is controlled by the Sahrawi Arab Democratic Republic (SADR); the remaining 70% is occupied and administered by neighboring Morocco.

Where is Western Sahara located?

Western Sahara is located on the north-west coast in West Africa and on the cusp of North Africa, bordering the North Atlantic Ocean to the northwest, Morocco proper to the north-northeast, Algeria to the east-northeast, and Mauritania to the east and south.

Who inhabited Western Sahara?

The earliest known inhabitants of Western Sahara were the Gaetuli. Depending on the century, Roman-era sources describe the area as inhabited by Gaetulian Autololes or the Gaetulian Daradae tribes. Berber heritage is still evident from regional and place-name toponymy, as well as from tribal names.

Which country controls Western Sahara?

Morocco controls territory to the west of the berm (border wall) while the Sahrawi Republic controls territory to the east (see map on right). Western Sahara was partitioned between Morocco and Mauritania in April 1976, with Morocco acquiring the northern two-thirds of the territory.

Is GE Vernova gambling on occupied Western Sahara?

The US company GE Vernova is seemingly gambling with its lucrative projects elsewhere when it operates in occupied Western Sahara for the Moroccan government. Western Sahara Resource Watch works to uncover the plunder of the territory and to keep the companies and governments accountable for their support to the occupation.
