

# Where can I get my electronic locker repaired

How do I fix a broken key in a locker lock?

Breaking a key inside a locker lock can be a frustrating and potentially costly problem. To address this issue: **Remove the Broken Key:** If a portion of the key is protruding from the lock, use pliers to carefully grip and extract it. Be gentle to avoid further damage.

How do I fix a jammed locker lock?

One of the most common locker problems is a jammed lock. This can happen due to rust, debris, or general wear and tear. When your lock refuses to turn, follow these steps to fix it: **Lubricate the Lock:** Start by spraying a lubricant like WD-40 into the keyhole.

How do I regain access to my locker?

To regain access to your locker: **Try the Default Combination:** If your locker uses a factory-set combination (usually printed on a label inside the locker or provided by the manufacturer), try using that combination to open it. **Contact the Institution:** If you're at a school or gym, reach out to the institution's staff or security personnel.

What are common locker problems?

However, like any mechanical system, lockers can encounter problems over time. Whether you're dealing with a jammed lock, a broken key, or a combination that refuses to cooperate, these common locker problems can be frustrating.

Do You stock locker locks?

Locker locks we stock a large range most of which we have in stock. We can supply and replace doors for most lockers. We supply and replace from all major manufacturers. We also supply Wrist bands, Tokens and other locker accessories. Don't see the product you are looking for here? Contact us see some of the reviews here.

What to do if a key is stuck in a lock?

Be gentle to avoid further damage. **Call a Locksmith:** If the key is stuck deep inside the lock or if you're unable to remove it yourself, contact a locksmith to safely extract the key fragment and, if necessary, replace the lock. For combination locks, forgetting the code is a common issue.
