Window sill solar panel bracket

However, you would need to open the window, place the bracket rear-opening (max 6.5in) over the window sill, and tighten down. This would NOT allow the window to fully close as the bracket would be in the sill. We would recommend mounting the Window Box Planter directly to your exterior wall with screws and hardware instead.

The window frames may be supported directly by brackets fixed to the primary structure or may be supported by horizontal and vertical framing members. Doors A complete door assembly, assembled on site or delivered as a complete assembly, consisting of the door frame, door leaf or leaves, essential hardware and any integral side panel or fanlight
