

Xianghua Solar Power Generation Co Ltd

Where is Xinhua power generation launching a new solar energy project?

July 18,2022 Xinjiang: The Xinhua Power Generation Company held a groundbreaking ceremony,together with Bortala Mongolian Autonomous Prefecture,celebrating the start of the firm's 1 GW new solar energy project at Bozhou,located on the north side of G219 National Road west of Bole City at Aheqi Farm,Jinghe County in Xinjiang Province,China.

What is Xinjiang's solar power station?

At the very center of the "sun" stands a 220-meter-high tower. It is not a mysterious ritual from the old days,nor artwork. The project is a modern attempt by the region to capitalize on its abundant solar energy and turn it into heat and power. The photothermal power station is the first of its kind in Xinjiang.

Where is China's largest photothermal power plant located?

Dunhuang,a 2,000-year-old city in northwest China,is now at the forefront of China's green energy drive. It's home to the nation's largest photothermal power plant,capable of storing solar energy for uninterrupted power supply. The power plant boasts a massive 100-megawatt installed capacity.

How much energy does Xinjiang produce?

Xinjiang generated some 84.45 billion kilowatt-hoursof clean energy power last year,a record high. About 32 percent of the electricity was transmitted to 20 other Chinese provinces,regions and municipalities,helping cut over 23 million tonnes of carbon dioxide.

What is Xinjiang's new energy push?

Xinjiang's new energy push is part of the country's accelerating shift from fossil fuels to clean energy. Official data showed that China's installed capacity of renewable energy power generation totaled 930 million kilowatts by the end of 2020,accounting for 42.4 percent of the country's total.

How many kilowatts does Qinghai have?

Currently,the total installed power generation capacity in Qinghai is 54,970,800 kilowatts,with clean energy accounting for 51,079,400 kilowatts,or 93 percent,of the total. Talatan is also witnessing drastic changes.

In 1999, our main business was solar power generation, and we set up our own factory for production. In 2003, we were the largest solar product supplier in Hong Kong with customers in 36 countries. In 2013, we were transformed into a leading provider of integrated solar wind solutions.

As the grass grows and the sand settles, new challenges emerge. Cao Jun, an engineer at Huanghe Hydropower Development Co., Ltd., anticipates that weeds will become a problem for the solar farm, as they could ...
