I possess strong communication ...

Hydroelectric power accounts for 17% of Africa's energy generation, but that figure is expected to rise to 23% by 2040, according to the International Energy Agency. Zambia is not alone in that ...

Once built, Buffalo Energy's projects will contribute significantly to Zambia's energy diversification strategy and its aim to increase energy access to improve livelihoods (National Energy Policy 2019). They will also support the country's conditional NDC target to reduce greenhouse gas emissions by 47% by 2030 against a base year of 2010.

He says the current energy crisis has highlighted the urgent need to increase the amount of energy the country produces to surpass the demand. The seven British firms which are about to invest in Zambia are Hive Green, Western Power, Buffalo Energy, Africa GreenCo, First Quantum Minerals Solar Energy, Vitalite Solar and SolarAid.
